TC 1700 MAIL ROOM

Sir:

The following is responsive to the Office Action mailed on or about  
February 1, 2002.

IN THE CLAIMS:

(A marked-up version of the amended claims is attached to this  
Amendment.)

Amend Claim 45 as follows:

45. (Amended) The target body according to Claim 44, wherein the  
magnetron source comprises a magnetic circuit arrangement operable to  
generate a magnetic field over the atomization surface, including an anode  
arrangement, a receiving frame which extends around an edge of the target body  
and is electrically insulated with respect thereto, which receiving frame has a  
receiving opening for at least one workpiece to be coated, and the atomization  
surface and a surrounding non-atomized residual interior surface of the receiving
